

FINAL DEBRIEF PRESENTATION

DATA ANALYTICS AT BORC

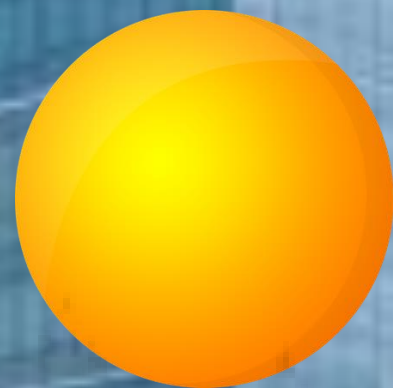

MagangHub Batch 2 (November 2025 – May 2026)

Presented by:
Frída Putriassa

Mentored by:
Ratna Dewanti & Chairul Rizki

AGENDA

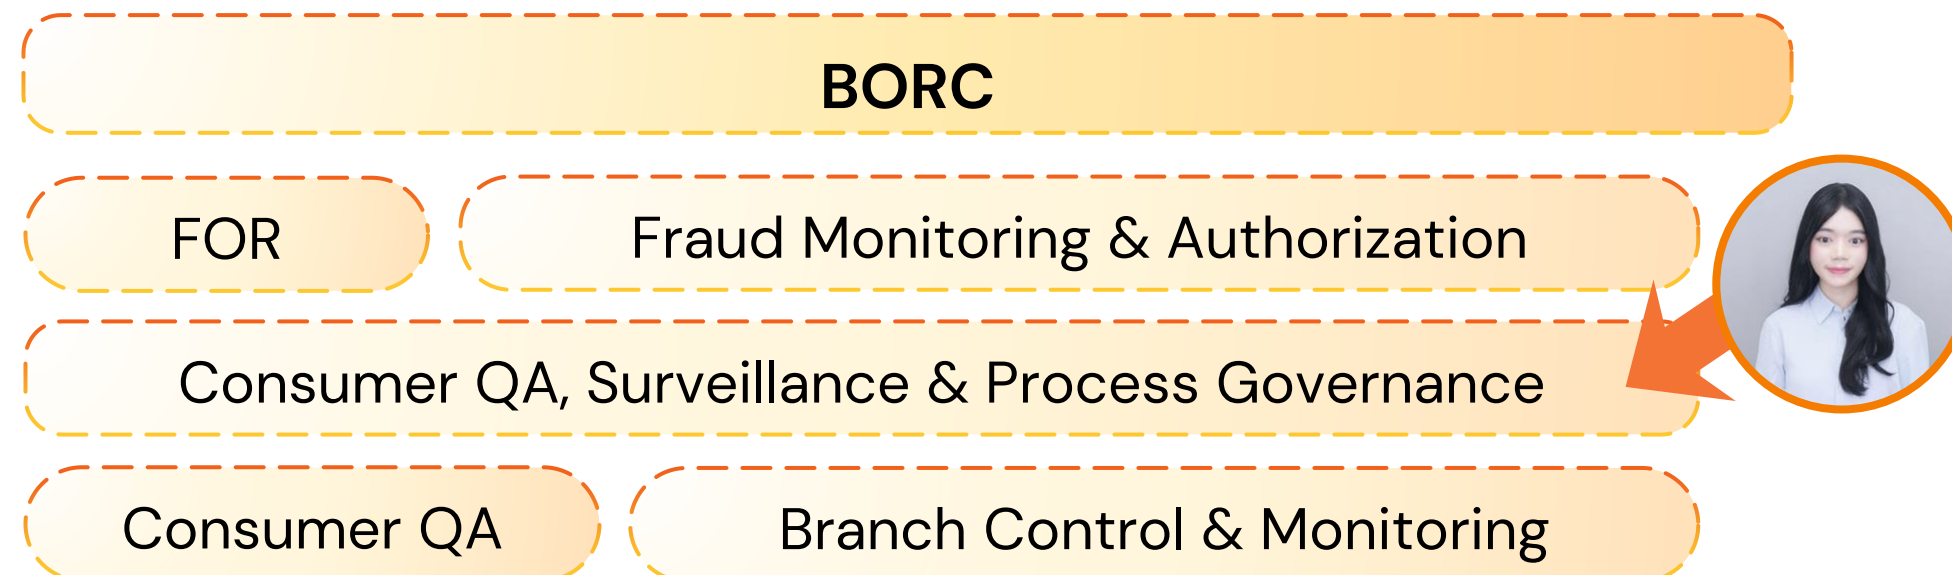

Final Presentation Debrief – MagangHub Batch 2

- 1 Placement Overview
- 2 Daily Data Monitoring
- 3 Bancassurance Working Paper
- 4 Bancassurance Examination (QA Analysis & Alignment)
- 5 MF Risk Profile Validation & Match Mismatch Analysis
- 6 WM Dashboard Development
- 7 Other Data Support
- 8 Summary
- 9 Appendix

Placement Overview

Business Operations Risk & Control

Team Structure & My Role

BORC is responsible for ensuring operational integrity, risk mitigation, and control effectiveness across business operations, particularly in bancassurance and wealth management activities.

Consumer QA, Surveillance & Process Governance works on conduct QA on products activities, identify anomalies or potential risks, ensure process governance & compliance across operations.

The BAU activities are designed to

Ensure data accuracy & consistency across datasets

Support Quality Assurance (QA) process for bancassurance

Enable effective monitoring through WCO & dashboard

Improve efficiency in data processing & validation

Record Handled
6000++ Rows Data

Monitoring policy & QA Checking

***“Clean data
ready for
monitoring
& QA”***

Incomplete or inconsistent source data

Bancassurance Working Paper

Bancassurance – Business Operations Risk & Control

Working Paper Preparation & Data Support

From **November 2025** to **May 2026**, I prepared and updated working papers on a regular basis, handling approximately **187 records/cases** to ensure data accuracy and readiness for QA analysis.

Workflow

Receive Documents

Extract Data

Input to Working Paper

Cross-check

Finalize for QA

Policy Documents

Key Activities

Input data from source polis document into working paper

Validate key information to ensure completeness and accuracy

Update working paper structure based on team request

Retrieve and align data from multiple sheets

Output

Structured working paper

Data ready for QA

Improved efficiency

CHALLENGES: Delays in document availability and limited system access required waiting for data to be provided.

Excel Implementation

Designed formula-based solutions to automate data extraction, filtering, and sorting based on business requirements.

XLOOKUP / VLOOKUP

Retrieve and match data across different sheets
(e.g. working paper and transaction data)

IF (Condition)

Perform match–mismatch check, validate data conditions
(e.g. match working paper with mismatch data)

SORT / SORTBY

Automatically sort data
(e.g. by policy year or transaction date)

FILTER

Extract specific data based on criteria
(e.g. selected policies or customers)

Bancassurance Examination (QA Analysis & Alignment)

Bancassurance – Business Operations Risk & Control

Banca Working Paper, QA Analysis & Alignment Data Coverage

 **8 Month**  **187 Cases Paper**  **6 Examination**  **103 Slide Deck**

Data Sources Used

Policy Document
CIF Profiling Data
Transaction Data
Policy Data
Gaharu
Core Banking System
WCO Data

QA Review Process

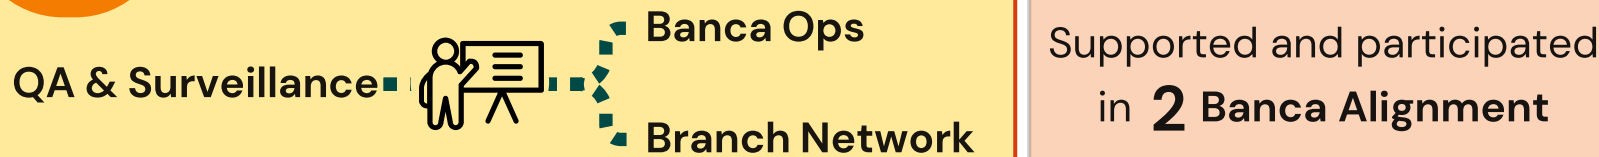

What I Checked

	Customer Profile	• Customer identity KYC completeness • Age vs product eligibility • Occupation
	Transaction Behaviour	• Transaction consistency • Incoming and outgoing transfer • Unusual pattern or anomaly
	Document & Callback BSM	• Document completeness & validity • Callback result & customer confirm • Comply with BSM policy

Analytical Logic Applied

Logic/Approach	Description	Example
Match-Mismatch Logic	Check if data align or not with expected rule and criteria	Income 10 Mio per month, annual premi 200 Mio
Cross-Data Consistency	Compare data accross multiple sources	Dob different between SPAJ and Core Banking Data
Historical Consistency	Check consistency with historical records	Policy increased significantly
Anomaly Identification	Flag unusual activity or incomplete information	Anomaly transaction: incoming transfer from BSM

Support preparation of alignment decks/materials

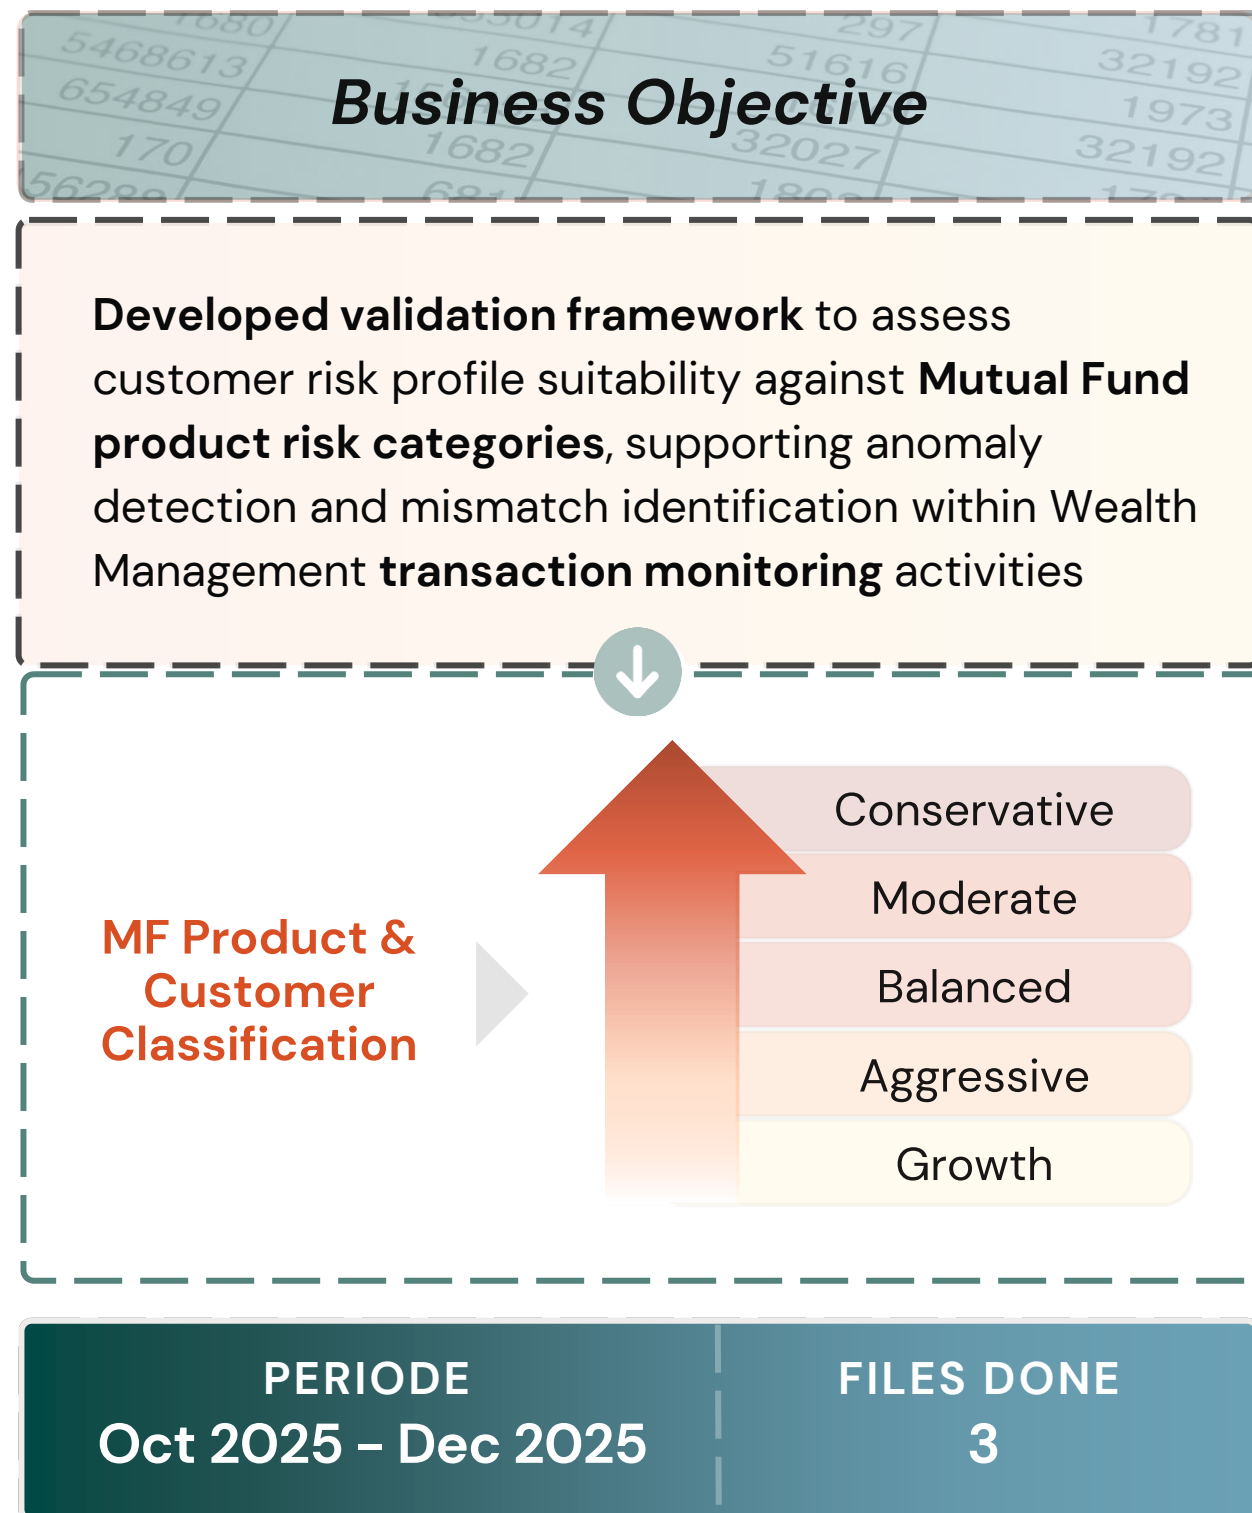

Bancassurance Examination & Alignment Outputs

Delivered verified bancassurance examination analysis along with alignment-ready presentation materials for stakeholder discussion and follow-up.

MF Risk Profile Validation & Match Mismatch Analysis

Wealth Management – Business Operations Risk & Control

Key Responsibility

- 1 Built MF product risk classification logic.

PRODUCT RISK PROFILE

```
=MID(VLOOKUP(02, [MF Bonds Product Risk Rating.xlsx]MF Product!$A$2:$B$2288, 2, FALSE), 4, LEN(VLOOKUP(02, [MF Bonds Product Risk Rating.xlsx]MF Product!$A$2:$B$2288, 2, FALSE)) - 4)
```

- 2 Built MF customer risk classification logic.

CUSTOMER RISK PROFILE

```
=LET(rngA, [Data Risk Profile.xlsx]Avantrade!A$2:A$65002, rngH, [Data Risk Profile.xlsx]Avantrade!H$2:H$65002, rngF, [Data Risk Profile.xlsx]Avantrade!F$2:F$65002, mask, rngA=E2, maxH, MAX(IF(mask, rngH)), IFERROR(XLOOKUP(maxH, IF(mask, rngH), IF(mask, rngF), 0, 1), ""))
```

- 3 Applied automated match-mismatch logic using advanced excel functions

MATCH-MISMATCH

```
=IF(OR([@CUST_PROFILE]="",[@PRODUCT_RISK_CATEGORY]=""),"Risk Profile or Product Rating Not Found", IF(AND([@CUST_PROFILE]="Conservative",[@PRODUCT_RISK_CATEGORY]="Conservative"),"Match", IF(AND(...)..tbc.."Mismatch"))
```

WM Dashboard Development

Wealth Management – Business Operations Risk & Control

Dashboard Overview

Developed **WM Monthly Dashboard 2025** to consolidate and monitor **transaction** activity across multiple WM **product**, reporting **periods**, and **regional**.

Rows Data
141.970++

Column Data
50+

Source File
5

Core Features

Monthly transaction monitoring by product category (MF, Bonds, MLD, DCI, FX)

Multi-source consolidation for centralized monitoring and reporting.

Regional transaction aggregation across multiple business units.

Technical Responsibilities

- Built Dashboard reporting structure for product-level and regional-level monitoring
- Processed, validated, and consolidated large-volume datasets from multiple WM product sources.
- Performed reconciliation, lookup validation, and cross-source data checking prior to dashboard integration.
- Maintained linked reporting workflow between raw datasets and dashboard visualization files.

I supported by made the automated linked reporting structure using external source datasets.

Other Data Support

Business Operations Risk & Control

Suspicious Account & CIF Validation

Conducted CIF-level account status validation and reconciliation using NCBS,

Churning Callback Investigation Support

Reviewed 100+ callback recordings and transaction details for Q1 2026 churning cases.

BORC Dashboard Monitoring (Deck/PPT Based)

Supported BORC dashboard monthly monitoring by updating memo review reporting by unit, monthly, and YTD periods, including reconciliation and validation of incoming document and BDS data for Jan – Nov 2025 against HTRO V6 source database.

....etc

Incoming Document by Unit Period Jan – Dec 2025												Incoming Document FOR BDS Period Jan – Nov 2025

Summary

WHAT I LEARNED

Business Understanding

Gained deeper understanding of insurance business process and the importance of data quality.

Analytical Thinking

Improved ability to analyze data issues, find root causes, and provide solutions.

Communication & Collaboration

Strengthened communication skills by working closely with Banca and cross-functional teams.

Time Management

Learned to manage priorities and deliver results consistently under tight deadlines.

Attention to Detail

Developed strong attention to detail to ensure accuracy, consistency, and reliability.

TOOLS & SYSTEM USED

Microsoft Excel

Microsoft Teams

OneDrive

Get Contact

PowerPoint

Email / Outlook

Gaharu

NCBS

Personal Growth

Adapt

Adjusted to the team, understood the process, and learn quickly

Improve

Improved skill, worked efficiently, and supported team better

Contribute

Took ownership, sloved problems, and contributed to better outcomes

Impact

Delivered reliable data and supported business decission-making

KEY TAKEAWAY

Every challenge taught me something valuable.
I will continue to learn, improve, and contribute to the team and the organization.

THANK YOU
